Build Your Future with CalMax Construction Limited

Due to continued growth and a strong pipeline of work, CalMax Construction Ltd is seeking experienced Plumbing Professionals to join our team in the Western Isles.

We currently have opportunities for:

1. Chargehand Plumber

A leadership role responsible for managing plumbing works on a major new housing development project.

2. Advanced Plumber

An experienced plumber who can work independently and support the delivery of domestic and commercial projects across the Western Isles.

Why Join CalMax Construction

- **Excellent Rates of Pay – with overtime potential**
- **Permanent Full-Time Employment**
- **Private Healthcare Scheme**
- **Company Vehicle – Provided for both roles.**
- **Pension Scheme**
- **Ongoing Training & Development**
- **Long-Term Career Progression**
- **Work on Major Housing, Commercial and Infrastructure Projects**

CalMax Construction Ltd is one of the Western Isles' leading construction and civil engineering contractors, delivering housing, utilities, commercial developments and maintenance works throughout the region.

Excellent earning potential available for the right candidates, including opportunities for overtime, additional responsibilities and career progression within one of the Western Isles' largest construction contractors.

Candidate Profile

We are looking for motivated, reliable, and skilled Plumbers who take pride in their work. Applicants should demonstrate strong problem-solving abilities, technical expertise, and a commitment to delivering safe, efficient, and high-quality plumbing solutions.

Essential Criteria

- **Full UK Driving Licence – Essential**
- **Recognised Plumbing Qualification (SVQ/NVQ Level 3 or equivalent)**
- **Proven experience in domestic or commercial plumbing installations and maintenance.**
- **Experience in Renewables & OFTEC (Oil Boilers)**

Key Responsibilities

- Install, repair, and maintain plumbing systems in line with project specifications and building standards.
- Conduct testing, commissioning, and inspection of completed systems.
- Work together with colleagues, managers, and clients to ensure projects are completed to specification.
- Adhere to all health and safety requirements and company policies.

This role is ideal for qualified plumbers looking for stable, long-term employment with a growing company that values skill, reliability, and quality workmanship.
